1. Claims 157 and 190 appear to be generic to a plurality of disclosed patentably distinct species comprising as follows.

Species I, directed towards Claims 157, 158, 164-173, 181, 190-192, 196-200 and 204-208;

Species II, directed towards Claims 174, 177 and 180;

Species III, directed towards Claims 175, 178 and 193;

Species IV, directed towards Claims 176 and 179;

Species V, directed towards Claims 182-189;

Species VI, directed towards Claim 194;

Species VII, directed towards Claim 195;

Species X, directed towards Claim 203;

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
